THITTAWAN WONGLOR

A highly motivated individual with strong skills in Network, Web Development, UX/UI Design and Embedded Systems. During my internship with a government agency, I developed an asset management system using React, Bootstrap, Laravel, and Oracle Database. Moreover, my experience as a student leader has honed my teamwork, problem-solving, and leadership abilities, which I bring to every project. Which mean I'm committed to continuous learning and delivering high-impact contributions to your organization.
